Map research practices survey

There are 41 questions in this survey.

Consent

In order to participate in this study, **you have to be involved in research as a permanent or non permanent fellow**.

This study will involve answering **questions about your research practices, your opinion about them and your current professional position**.

The whole study takes about **10 minutes**. So make sure to complete it in a quiet environment.

All information and responses will be stored anonymously and used and shared for research purposes only. You can quit the study at any time, but if you complete the survey your data will be included in further analyses.

For open science reasons, we are willing to share the data collected with the scientific community.

This research has received ethical approval by the Université Paris Cité (IRB: 00012024-29). You will find the Informed Consent Form and contact information below.

Thank you for your participation!

*

Please choose **only one** of the following:

◯ Yes, I am involved in research

INFORMATION LETTER CONCERNING PARTICIPATION IN A STUDY

"Research practices"

Study sponsor: **Université Paris Cité**

Dear Sir/Madam

You have been invited to take part in a study conducted by Klara Kovarski (Sorbonne Université; LaPsyDÉ - Université Paris Cité & CNRS) and Marco Sperduti (Université Paris Cité), Louise Kirsch (INCC, Université Paris Cité), Julia Ayache (EuroMov DHM, Université de Montpellier) & Dominique Makowski (University of Sussex).

This research has received ethical approval by the Université Paris Cité (IRB: 00012024-29).

This document describes the study in which you are being asked to participate, and answers any questions you may have based on the information currently available before deciding whether or not to take part.

I. Information about the study

What are the objectives of the study?

The study aims at investigating your knowledge and experience with different research practices. With this aim you will be asked to answer different questions.

What are the benefits of your participation in the study? Does the study involve any particular risks?

The present study aims at investigating the knowledge and use of some research practices.

Your participation in this research project will not put you at risk, and we will ensure that each participant is treated with respect and kindness.

How will the study be carried out?

This study consists in an online survey (Limesurvey). It takes around 10 minutes. You will not receive any compensation for the study, nevertheless we will make the data and results available for use.

What are your rights as a research participant?

You are completely free to accept or refuse to take part in this study, without having to justify your decision, and without any consequences for you.

You have the time you consider necessary to make your decision.

If you accept, you may change your mind before the end of the survey. We will consider only complete responses, so any incomplete answer will be deleted. However, if you complete the survey, your responses will be automatically included in the pre-processing phase, as they will be completely anonymous (this will not allow us to delete them).

II/ Information on the processing of your personal data

Does this study involve the processing of your personal data?

Your participation implies the processing of your responses that will be produced as part of this study. No identifying data will be asked during the survey.

The data controller is Université Paris Cité and the data will be stored on a Sorbonne Université server.

What are your rights with regard to your personal data?

You can leave the survey before completing it. However, once completed, your data will be automatically included.

If you have any questions about this research, please contact the principal investigators directly. You will receive a reply as soon as possible, and no later than one month from receipt of your request. Please write “Research practice project 2024” as an email object.

You can also contact Université Paris Cité's Data Protection Officer at dpo@u-paris.fr

If, after contacting us, you feel that your "Informatique et Libertés" rights have not been respected, you may submit a complaint to the CNIL (www.cnil.fr).

How is your personal data managed?

As part of this study, the following information is collected and analyzed:

- Country of workplace
- Gender
- Age
- Parental leave information
- School, academic and professional life (actual position and intention to continue a career)

- Economic and financial information (if you are a permanent or non permanent fellow)
- Data relating to your satisfaction about work
- Data on your work-personal life balance

Transfer of data outside the European Union: Yes (data will be completely anonymous)

To guarantee the security and confidentiality of your data, the following technical and organizational measures have been implemented:

- All data are anonymous.
- Data will be published in the form of an article in a scientific journal, in order to improve research knowledge. Research results may also be presented at professional and scientific conferences. Processed data will be made public in line with Open Science practices.

We thank you for your participation.

Principal investigators: Klara Kovarski & Marco Sperduti for the team

Contact details: klara.kovarski@sorbonne-universite.fr; marco.sperduti@u-paris.fr

Only answer this question if the following conditions are met:
Answer was 'Yes, I am involved in research' at question ' [Consent]' (In order to participate in this study, you have to be involved in research as a permanent or non permanent fellow. This study will involve answering questions about your research practices, your opinion about them and your current professional position. The whole study takes about 10 minutes. So make sure to complete it in a quiet environment. All information and responses will be stored anonymously and used and shared for research purposes only. You can quit the study at any time, but if you complete the survey your data will be included in further analyses. For open science reasons, we are willing to share the data collected with the scientific community. This research has received ethical approval by the Université Paris Cité (IRB: 00012024-29). You will find the Informed Consent Form and contact information below. Thank you for your participation!)

Please choose **only one** of the following:

◯ Yes, I agree to participate in the study

General

Age (please enter numbers only) *

Please write your answer here:

Gender *

Please choose **only one** of the following:

- Male
- Female
- Non-binary

How many children do you have? *

Choose one of the following answers
Please choose **only one** of the following:

- I have no children
- 1
- 2
- 3
- More than 3

How long have you been on parental leave overall (for all your children)?

*

Only answer this question if the following conditions are met:
Answer was '1' *or* '2' *or* '3' *or* 'More than 3' at question ' [G02Q40]' (How many children do you have?)

Choose one of the following answers
Please choose **only one** of the following:

- ◯ I did not take any parental leave
- ◯ Less than 2 weeks
- ◯ Between 2 weeks and 1 month
- ◯ Between 1 month and 3 months
- ◯ Between 3 months and 6 months
- ◯ Between 6 months and 1 year
- ◯ Between 1 year and 2 years
- ◯ More than 2 years

Country of workplace *

Please write your answer here:

Academic affiliation (e.g. Sorbonne University, Karolinska Institute, University College London, CNRS...)

Please write your answer here:

Your discipline (select the most appropriate answer): *

Please choose **only one** of the following:

- ◯ Social Sciences & Humanities
- ◯ Physical Sciences & Engineering
- ◯ Life Sciences

Specify your subdiscipline (e.g., Social psychology, Astrophysics...): *

Please write your answer here:

Last diploma obtained: *

Please choose **only one** of the following:

- ◯ Bachelor
- ◯ Master
- ◯ PhD

Starting year of the PhD (Enter year): *

Please write your answer(s) here:

Current position contract: *

Please choose **only one** of the following:

- ◯ Research Assistant/Engineer (non permanent)
- ◯ PhD (scholarship, other funding)
- ◯ PhD (no funding/self funded)
- ◯ Postdoc (fixed term contract)
- ◯ Permanent position

Do you have additional activities?

[Tick all that apply - multiple responses are possible]

*

Please choose **all** that apply:

- ☐ Clinical
- ☐ Committees
- ☐ No other activities
- ☐ Other:

Please allocate the approximate percentage of your working time that you dedicate to each of the following activities: *

The sum must equal 100.
The sum must be at most 100
Please write your answer(s) here:

Research

Teaching

Administration

Popularization/Communication

Other (training, job search, …)

Would you like to pursue an academic career? *

Only answer this question if the following conditions are met:
Answer was 'PhD (no funding/self funded)' *or* 'PhD (scholarship, other funding)' *or* 'Research Assistant/Engineer (non permanent)' *or* 'Postdoc (fixed term contract)' at question ' [Q09]' (Current position contract:)

Please choose **only one** of the following:

- ◯ Yes
- ◯ No
- ◯ I don't know

Estimate the probability to obtain a tenure track/permanent position in what you consider to be an acceptable timeframe: *

Only answer this question if the following conditions are met:
Answer was 'Research Assistant/Engineer (non permanent)' *or* 'Postdoc (fixed term contract)' *or* 'PhD (no funding/self funded)' *or* 'PhD (scholarship, other funding)' at question '[Q09]' (Current position contract:) *and* Answer was 'I don't know' *or* 'Yes' at question '[Q010np]' (Would you like to pursue an academic career?)

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Have you already published (article, patent or any other publication related to your career)? *

Only answer this question if the following conditions are met:
Answer was 'Research Assistant/Engineer (non permanent)' *or* 'PhD (scholarship, other funding)' *or* 'PhD (no funding/self funded)' *or* 'Postdoc (fixed term contract)' at question '[Q09]' (Current position contract:)

Please choose **only one** of the following:

- ◯ Yes
- ◯ No

What is your job title? *

Only answer this question if the following conditions are met:
Answer was 'Permanent position' at question ' [Q09]' (Current position contract:)

Please choose **only one** of the following:

- ◯ Full Professor/Directeur de recherche
- ◯ Associate Professor/Senior Lecturer/Maître de conférences or Chargé de recherche with Habilitation à diriger des recherches
- ◯ Assistant Professor/Lecturer/Maître de conférences or Chargé de recherche
- ◯ Research Engineer/Research data scientist/Research Technician

Estimate the likelihood of your future career progression in what you consider to be an acceptable timeframe: *

Only answer this question if the following conditions are met:
Answer was 'Permanent position' at question ' [Q09]' (Current position contract:)

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

To what extent are you satisfied by: *

Your answer must be between 0 and 100
Please write your answer(s) here:

T

T

For you, what are the **three** most important criteria for assessing the quality of scientific works? *

Please select at most 3 answers
Please choose **all** that apply:

- [ ] Innovation/Originality
- [ ] Significance (e.g. impact)
- [ ] Rigorous methodology (e.g. paradigm, participants)
- [ ] Relevance of data analyses methods (e.g. statistical analyses)
- [ ] Publication in high impact factor journals
- [ ] Transparence (e.g. pre-registration, access to data, scripts and material)
- [ ] Replication
- [ ] Environmental impact
- [ ] Inclusivity (diversity, gender equality)

Open Science

How familiar are you with the Open Science movement? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Have you already participated in training and/or workshops concerning Open Science? *

Choose one of the following answers
Please choose **only one** of the following:

- ◯ Yes
- ◯ No

How important do you consider Open Science for scientific practice? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

What is you attitude about the following practices:

[Tick all that apply - multiple responses are possible, e.g., I know it but I haven't used it & I plan to use it in the future] *

	I am not familiar with it	I know it but I haven't used it	I know it and I used it	I plan to use it	I don't plan to use it in the future
Study Preregistration (e.g., pre-analysis plan, prospective registration)	☐	☐	☐	☐	☐
Registered Reports (format of empirical article where a study proposal is reviewed before the research is undertaken)	☐	☐	☐	☐	☐
Open Materials (making research materials publicly available e.g., experiments, questionnaires, analysis code, intervention materials)	☐	☐	☐	☐	☐
Open Data (making research data publicly available, e.g., FAIR data)	☐	☐	☐	☐	☐
Open Peer Review (journal or grant peer review where authors and reviewers are aware of each other's identity)	☐	☐	☐	☐	☐

	I am not familiar with it	I know it but I haven't used it	I know it and I used it	I plan to use it	I don't plan to use it in the future
Open Access Publication (making peer-reviewed papers or other publications publicly available, e.g., via preprints)	☐	☐	☐	☐	☐
Replication Studies (research attempting to reproduce the methods and findings of prior research)	☐	☐	☐	☐	☐
Participatory Research (researchers, public and practitioners working together in research, sharing responsibility throughout a project)	☐	☐	☐	☐	☐

What would help you to use more Open Research practices? **Please select up to 5**: *

Select all that apply
Please select from 1 to 5 answers.
Please choose **all** that apply:

- [ ] More information on Open Research practices
- [ ] More training using Open Research practices
- [ ] Understanding ethical issues (e.g., issues around data sharing)
- [ ] Supporting infrastructure (e.g., sufficient storage for open data)
- [ ] More time
- [ ] Workload dedicated to Open Research
- [ ] Dedicated funding for Open Research
- [ ] Incentives from funders, institutions or other regulators
- [ ] Recognition of Open Research in promotion and recruitment criteria
- [ ] Support from senior researchers (e.g., supervisors and principal investigators)
- [ ] Support from junior researchers (e.g., PhD students, early career researchers)
- [ ] Need for more positive beliefs about Open Research
- [ ] I do not plan to take up Open Research practices
- [ ] Nothing

Slow Science

How familiar are you with the Slow Science movement? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Have you already participated in training and/or workshops concerning Slow Science? *

Choose one of the following answers
Please choose **only one** of the following:

- ◯ Yes
- ◯ No

How important do you consider Slow Science for scientific practice? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

How would you define Slow Science? **Please select up to 3** *

Select all that apply
Please select from 1 to 3 answers.
Please choose **all** that apply:

- [ ] Improving quality over quantity
- [ ] Adopting slow process rather than short-term goals
- [ ] Changing metrics for assessing scientific practices
- [ ] Increase time allocated for research practices
- [ ] Diminishing the number of publications
- [ ] Improving work/life balance

To what extent do you consider these measures to be feasible?

[Tick all that apply - multiple responses are possible, e.g., Feasible changes at the individual and institutional levels] *

	Feasible with changes at the individual level	Feasible with changes at the institution level	Not Feasible
Limit the number of articles sent for publication	☐	☐	☐
Replicate before publishing	☐	☐	☐
Think in longer timescales and survey larger horizons	☐	☐	☐
Provide models for the next generation of scientists	☐	☐	☐
Assess quality, not quantity	☐	☐	☐
Value teamwork and not individual work	☐	☐	☐
Publish only one article per year	☐	☐	☐
Having only one grant per year	☐	☐	☐

Green Science

How important is environmental sustainability in how you conduct your research? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

How important is environmental sustainability in choosing research topics? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Have you changed your research practices (e.g., experimental design, topic, material) for environmental sustainability reasons? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Have you changed your research communication practices (e.g., professional travels) for environmental sustainability reasons? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Do you think there is a link between scientific production and environmental sustainability? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Would you agree to change your research practices for environmental reasons? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Ethical/Inclusive science

How important do you consider the diversity of the research team (in terms of neurodiversity, disability, ethnicity, gender, etc.)? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

How important is it to be careful regarding the direct consequences (e.g. benefits or harms) for the participants or society of your research? *

Only answer this question if the following conditions are met:
((798656X3524X26986.NAOK == "A4"))

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:

|

Well-being

Almost done!

For each statement estimate your overall agreement: *

Your answer must be between 0 and 100
Only integer values may be entered in these fields.
Please write your answer(s) here:
